Mirae Asset embraced
a mindset of perpetual innovation,
transforming challenges into opportunities
and constraints into expansive pathways.

Chairman's Letter

Since its founding in 1997,
Mirae Asset has been pioneering a path of innovation,
driven by its commitment to creating value for clients and society.

Mirae Asset is currently navigating what may be the steepest inflection point in human history. The era of AI-driven upheaval has brought us face to face with the cold and sometimes painful realities of “wealth polarization” and “job polarization.” Moving beyond the age when capital alone generated wealth, we are now witnessing an extreme “Asymmetry of Productivity”—a phenomenon where AI intelligence monopolizes productivity. This will accelerate “Job Polarization,” dividing the market between intelligence that devises strategies and labor that repeatedly performs routine tasks. Those who lose insight may be relegated to mere tools of AI, but those who have the courage to anticipate and preempt change will be the ones who redraw the global wealth map.

Throughout history, capitalism has always redrawn the map of wealth during periods of profound transformation. Crisis is a threat to the unprepared, but for innovators like us, it is a golden opportunity to reshape the entire paradigm of finance. As we enter the Mirae Asset 3.0 era, expanding beyond traditional assets into a globally connected digital asset ecosystem, Mirae Asset seeks to build a better future through three core strategies that will mark our “Second Founding.”

First, Mirae Asset will shatter the boundaries of assets through “Tokenization” and the completion of a “Global Investment Network.” Our acquisition of a crypto exchange in Korea was a preemptive move toward the future of finance. We are now fully committed to developing dedicated mobile platforms for retail clients in key global hubs, including the US and China. Our goal is clear: to establish a “Digital Asset Investment Grid” that seamlessly connects the world by digitally tokenizing all of the Group’s investment assets, spanning traditional, alternative, and digital assets. When clients around the world are able to invest directly in Mirae Asset’s high-quality assets through this global network, without the constraints of time zones or borders, we will truly become a global standard in finance.

Second, Mirae Asset will take a bold new leap forward by integrating WealthSpot’s AI capabilities with our platforms. The unparalleled AI asset management expertise being built by WealthSpot in the US will unleash its true disruptive power when combined with our new platforms. This powerful integration will be the decisive catalyst for Mirae Asset to evolve into a “Digital Asset Manager,” venturing into territory where no one has gone before. On this journey, Global X ETFs will serve as the primary vehicle to deliver our innovative investment strategies around the world, accelerating the expansion of our network. The synergy created by WealthSpot’s intelligence, our platform connectivity, and Global X’s distribution capabilities will form the bedrock of an overwhelming competitive advantage that will enable us to lead and reshape the global investment landscape.

Third, we will expand our global footprint and secure a true “Super-Gap” through the reinvestment of profits. In the world of investment, complacency is another word for regression. The profits Mirae Asset has accumulated and the capital generated through successful investment exits must be reinvested in the engines of future growth. We will keenly identify every opportunity for expansion in China and Europe, through both M&A and organic growth. In particular, we must not miss the opportunities arising in the US and China, the two major pillars of the global economy. We must reinvest our secured capital in the front lines, where the “spirit of the wild” remains alive, and create a Super-Gap that our global competitors cannot match.

Investment is in Mirae Asset’s DNA. Investment is not about maintaining the status quo; it is about disruptive innovation that turns what once seemed impossible into reality. At a time when others are held back by inertia and hesitate to innovate, Mirae Asset must be the first to step forward—managing risks while boldly seizing opportunities.

The path we take goes beyond simply generating profits for the company. It is the practice of “Warm Capitalism”—creating jobs through investment and helping our clients secure a stable and comfortable retirement. This is how Mirae Asset has always operated, and it is the only path we must continue to follow. As the waves of polarization grow stronger, what we need is not complacent diligence, but “Strategic Insight” to see into the future and the “Decisiveness” to act without fear of failure. As a Permanent Innovator, Mirae Asset will never cease to innovate.

Thank you.

Hyeon-Joo, Park
Founder & Global Strategy Officer of Mirae Asset

Investment and Pension

Mirae Asset supports our clients throughout their entire lifecycle with a long-term pension investment solution designed to secure a stable and comfortable retirement.

Mirae Asset leads the pension market encompassing both personal and retirement pensions, providing customized, integrated pension asset management services—from accumulation to decumulation—based on its accumulated investment experience and global asset management capabilities.

Mirae Asset ETF (Exchange Traded Fund)

Mirae Asset ETF has established a global ETF platform across 15 global markets, offering globally competitive ETF solutions with differentiated investment strategies, including thematic approaches, income, and dividends.

Mirae Asset TDF (Target Date Fund)

Mirae Asset TDF offers a retirement solution that automatically adjusts the allocation of investment assets based on the investor's expected retirement date, efficiently managing retirement savings from accumulation to withdrawal.

Mirae Asset MVP (Mirae Asset Variable Portfolio Fund)

The Mirae Asset MVP Fund, the industry's first discretionary global asset allocation fund, operates on the principle of global diversification and actively responds to global markets. The MVP Fund is expanding its lineup with the Global MVP, ETF Global MVP, and ETF AI MVP series.

“Mirae Asset’s corporate philosophy and core values were defined at the time of its founding. At first, I considered traditional company values such as faith or sincerity. However, I wanted Mirae Asset to stand out from its competitors. That’s why I chose phrases such as ‘open mind’ and ‘embracing the future’. I hope Mirae Asset can become a company of talented people who are responsive to changes.

I sincerely hope that these excellent people will grow and inherit the founding philosophy of Mirae Asset and compete in the global market with great confidence.”

Our journey has been one of perseverance, vision,
innovation, and an unwavering commitment
to doing what is right for clients.

As we forge into an era of rapid technological disruption,
let us be guided by the timeless values
that have brought us this far - honesty, transparency,
and always putting our clients first.

Success is a journey, not a destination.
